EXPERIENCE

Boeing

Jul 2025 - Present | El Segundo, CA

- Senior Software Engineer
 - Build distributed framework storing and transferring 1TB of training data for internal AI models (**Argo, Python, Docker, Kubernetes**)
 - Harden geosynchronous satellite backend software through test case refactoring and codebase remodeling, increasing coverage by 60% (**TypeScript, Python, AWS S3**)
 - Own DevOps CI/CD pipeline for a team of 10 software engineers, cutting deployment time by 10 minutes (**GitLab**)

Northrop Grumman

Aug 2020 - Jun 2025 | Manhattan Beach, CA

- Software Engineer
 - Deployed a full-stack AI chatbot application (**React, Python, Llama3, RAG**) letting hardware engineers query spacecraft test interfaces and generate test scripts on demand
 - Led and developed a custom full-stack web application (**React, Python**) that automates internal engineering scripts and tasks, saving 20 hours a month
 - Built and led a real-time web data visualization platform (**Vue, Python**) for 50 test engineers, reducing spacecraft commanding decision latency by 15%
 - Modernized a 20-year-old legacy system into a desktop application (**TypeScript, Vue, Electron**)
 - Shipped weekly patches for multi-layered spacecraft test interface (**Java, SQL**)
- Associate Software Engineer
 - Delivered a distributed control system across software and embedded hardware to monitor and analyze a propelled sled (**Python, Real-Time OS, FPGA, LabVIEW**)
 - Built a custom REST API client (**C#**) for an internal server tool, saving 8 hours per week

SKILLS

- Programming Languages/Frameworks: TypeScript, JavaScript, React, Python, Java, Node + Express, Swift, Vue, Solidity, SQL
- Certifications/Awards: Docker Containerization, Blockchain Analytics, Northrop Grumman BRAVO Award (x3)
- Spoken Languages: English, Spanish, French, Yoruba, Arabic
- Interests: Soccer, Travel, Social Media

VENTURES + PROJECTS

- Electrolyte - Language Learning Platform for Athletes - (electrolytegroup.com) Sep 2026 - Present | Los Angeles, CA
 - Shipped two B2B full-stack web and mobile applications (**React, TypeScript, Node + Express, SwiftUI, Tailwind, Supabase**)
 - Led go-to-market and closed the first paying club on a per-athlete subscription, generating recurring revenue within the first quarter of launch
 - Integrated ElevenLabs Text-to-Speech, OpenAI, and Resend APIs
- RigNest - Operations Software for Linehaul Contractors - (rignest.io) Mar 2026 - Present | Costa Mesa, CA
 - Built multi-tenant payroll platform (**React, TypeScript, Supabase, Deno, Stripe**) processing six figures in settlements and payroll per quarter
 - Integrated Motive ELD over OAuth 2.0 across 23 API endpoints with HMAC-signed webhooks for HOS, DVIR, IFTA, and live vehicle tracking
 - Shipped usage-based Stripe billing with per-vehicle metered pricing, annual and flexible plans, and automated proration
- Too Fast Too Slow - Gaming Application - ([too-fast-too-slow](https://too-fast-too-slow.com)) Nov 2023 - Present | Los Angeles, CA
 - Develop mobile application (**SwiftUI**) in Xcode with Game Center and In-Application Purchase integrations
 - Execute beta testing with a group of users and analyze feedback for upcoming versions
 - Scale application to 350,000 impressions across 5 continents
- Built By Friday - Software Agency - (builtbyfriday.com) Oct 2022 - Present | Los Angeles, CA
 - Deliver automations, custom software, and architecture consulting to startups and small businesses (**React, TypeScript, Python, Supabase**)
 - Closed multiple 4-figure client contracts across one-time and recurring retainer structures
- Dably - Education Application - (dably.co) Sep 2023 - Dec 2025 | Los Angeles, CA
 - Architected suite of business admin and user-facing applications (**React, FastAPI, Supabase**)
 - Designed a CI/CD pipeline for development and production instance deployments of 8 repositories with Railway
 - Managed an outsourced team of 5 engineers to convert Figma designs into an MVP
 - Managed a 4-figure budget for tech costs (frontend/backend/database hosting, domains, contractor/intern hiring)

EDUCATION

University of Illinois Urbana-Champaign (M.S. Management)

Aug 2024 - May 2026 | Urbana, IL

- Cozad New Venture Challenge Commitment to Entrepreneurship Cash Prize Winner

George Mason University (B.S. Computer Science)

Aug 2016 - Aug 2020 | Fairfax, VA

- Division 1 Athlete on Men's Soccer Team (30 hr/week)
- National Society of Black Engineers - Executive Board Senator
